

## PISTOL AIMED AT MAN TRYING TO SAVE HIS SHIP

The Helen H. Atwood Was Ablaze When Wrecking Tug Came Along.

SHE RAN HOSE ABOARD.

Mate Wouldn't Stand for Any Salvage and He Shired Would-Be Rescuers Off.

An attempt to secure salvage on the three-masted schooner Helen H. Atwood, which caught afire off Stapleton today, almost led to a gun battle between the members of the crew and the crew of a wrecking tug.

The schooner was waiting for a fair wind to start for sea, bound for Porto Rico, when smoke was discovered issuing from her forward hatch. A bucket brigade was started, and the American flag was raised with the union down, the signal of distress.

First Officer Clinch ordered the hatches open and had the members of the crew wheel fifty carboys of muriatic acid and vitriol to the rail, ready to dump them overboard when the fire approached them. They contained enough explosive to blow the ship out of the water.

Help Swarms to Her.

The fire was deep in the hold, in the lumber and coal cargo. A tremendous volume of smoke arose, and started rescuers on the way to the burning ship from every part of the bay. The water boat Stapleton was the first to arrive alongside, and four streams of water were started into the hold. The fire boat South Low ran over from Brooklyn and lent aid.

When the work of fighting the fire was well under way, the Merritt-Chapman wrecking tug J. J. Merritt ran alongside. "Cut her loose and we'll take her," called the captain of the tug. "Hold off there!" shouted Mate Clinch. "There's no salvage here. We don't need you."

Boarded the Schooner.

Edward Dennison, agent for the Merritt-Chapman Company, climbed on the schooner and had his men run four lines of hose over the side. "Get off this ship!" called Mate Clinch to him. Clinch ran to the cabin and returned with a monster horse pistol. He ran up to Dennison and pointed the gun under his nose.

"If you don't get overboard with your men I'll kill you," shouted Clinch. Dennison promptly obeyed and his men dragged away their hose and left Clinch threatened to cut the lines. Owing to the great volume of smoke, it required two hours of hard work to conquer the flames. The fire-fighters were forced to work on the lee side of the ship.

Damage \$12,000 Worth.

The fire did damage to the extent of \$12,000. When the fire was out, the schooner was lying low in the water. She will be towed to dock and unloaded.

Capt. W. S. Watts is in charge of the schooner, which has a crew of twelve men. She is owned by Pendleton Bros. of No. 120 Pearl street, Manhattan. She was bound for Humacao, Porto Rico. She was built in 1882 at New Bedford, Mass. She is of 125-ton gross burden. Her length is 125 feet and she is 15 feet in width.

## \$16,000 A YEAR FOR MAKING HIS "MAGIC BOOTS"

Secretary Boroughs Testifies that This Is Hilgert's Salary.

When Justice Fitzgerald today resumed the trial of Matthew Hilgert, the "magic boots" maker, the courtroom was filled with cripples, who are summoned by Assistant District Attorney Hart for the prosecution and Abraham Levy and Joseph Rosalsky for the defense.

Mr. Hart's first witness to-day was Michael McLaughlin, an employee of the Park Department in Brooklyn. Mr. McLaughlin has a boy ten years old, who suffers from partial paralysis. He testified that Hilgert told him a pair of the shoes guaranteed to help the boy would cost \$100.

"I told him I was a poor man," McLaughlin testified, "and he told me he would make the shoes for me for \$100. Q. What did he tell you? A. He told me all the boy required was freer circulation of blood."

McLaughlin said he had signed a contract for the shoes which were to cost \$100.

He identified a copy of the contract, which was produced by the defense. Five dollars was the first payment, \$20 when the shoes were received, and \$12 a month until the \$100 was paid.

On cross-examination, McLaughlin said his boy had been suffering from paralysis of the ankle for three years. Hilgert had suggested that he make a brace for the boy. Mr. Levy exhibited to the jury a cast of the boy's foot and ankle. It showed that the ankle was badly bent.

Q. Did you think the boy's foot and ankle were made by Hilgert? A. Yes, sir. Q. Did you think the boy's foot and ankle were made by Hilgert? A. Yes, sir. Q. Did you think the boy's foot and ankle were made by Hilgert? A. Yes, sir.

## NO POLITICS IN HIS OFFICE GIFTS, HUGHES DECLARES

Tells Wadsworth the Appointment of Stevens Was Not a Slap at Him.

(Special to The Evening World.) ALBANY, Jan. 15.—Gov. Hughes made it plain to-day that his appointment of ex-Senator Frederick C. Stevens, the political foe of Congressman Jacob W. Wadsworth and his son, Speaker Wadsworth, was not a slap at the speaker. The latter had a very earnest talk with the Governor to-day. After the interview the Governor gave out this statement:

"The appointment of Senator Stevens was not a political appointment. It is not the intention to make the administration a party to any factional controversy. The appointment was a personal one, and was made on the basis of his services to the State in an important department, the service of a high character and a high degree of business ability."

"The Governor particularly desires that the political appointment should not be regarded as showing the slightest antagonism to Speaker Wadsworth, for whom he has the most unqualified esteem."

"The Governor was asked: 'Does your statement that the Stevens appointment was not a political one, indicate that it is your plan not to make political appointments?' 'I don't care to say anything on that subject,' Mr. Hughes replied. 'I stand in regard to appointments as well defined as the Governor's position.'"

The politicians are predicting all sorts of results if Governor Hughes continues to turn down machine men. They say that a policy which has been begun, would wipe out every inducement for a man to work for the Republican organization.

ASKS INQUIRY ON HARAHAN ELECTION.

SPRINGFIELD, Ill., Jan. 15.—Senator Henry Evans, of Kansas, introduced a resolution for the appointment of a special committee of five to make a thorough investigation of the election of J. H. Harahan to the presidency of the Illinois Central Railway.

DENVER, Col., Jan. 15.—Samuel Guggenheim, Republican, was today elected United States Senator by the Colorado Legislature to succeed Thomas M. Patterson, Democrat.

Two Men Just Escaped Being Crushed to Death by It.

Two men escaped death by the crushing of a cylinder suspended outside the eighth floor of the Puck building, at Jersey and Lafayette streets, dropped to the pavement and smashed a big derrier truck to pieces. Two teams of horses, frightened by the noise, ran away and the neighborhood was littered with wreckage, but no one was damaged to any extent.

J. Ottman & Co., lithographers, on the eighth floor of the Puck building, are moving to a new plant in Elizabethport, N. J. The cylinder, part of their machinery, was being lowered to the street by eight riggers in the employ of Charles Britton, a mover, of No. 6 Gold street.

James E. Garrett, of No. 45 Sixth avenue, and Barney Haenfling, of Eighty-ninth street and Third avenue, were on the sill of the window through which the cylinder had been taken, and were just about to give the signal to lower away when Garrett heard the rigging crack. With a yell to the men below, he and Haenfling jumped back into the building through the open window, just in time to escape the mass of tackle that would have dragged them to the street in another second.

The men on the ground dodged around the corner of Jersey street into Lafayette street and were safe. The horses attached to a truck which the cylinder struck ran west in Jersey street and a team attached to another truck ran east to Mulberry street where the outfit collided with another truck. The runaways were caught by Sergt. Altmeppen and Policemen McGrath.

## Third Reduction on Marble Figures and Pedestals

Moving China Store from Basement to Fifth Floor has served to convince us that we have too many Marble Figures and Pedestals for this time of year. We want some of the room they occupy for other wares, hence this reduction sale to-morrow, which will permit you to choose the pieces you like best and clip a third off our regular prices—and these regular prices, by the way, are exceptionally low.

Carrara and Castella marble figures and busts of exquisite design, many of them masterpieces of well-known artists; also pedestals of every kind and description.
